

Laboratory Express, Inc. was created in February of 1997. The corporate headquarters are in Cordova, TN, which borders Memphis.

We currently collect specimens and related materials for 15 different laboratories in over 75 markets nationwide.

Laboratory Express utilizes contractors to collect and transport specimens to each specified laboratory. A Laboratory Express Operations Manager trains and manages all ground Contractors. Laboratory Express collects, consolidates, and packages specimens daily; we ship according to each Laboratory's specific needs.

All specimens are packed according to IATA 650 specifications in accordance with FAA / TSA regulations. Laboratory Express is certified with the FAA / TSA and has adopted and is carrying out a security program in accordance with FAR Part 109 with the FAA /TSA. Most specimens are shipped via commercial airlines. Some laboratories prefer to use overnight services. Laboratory Express customizes its operation to fit each Laboratory's specific needs.

Laboratory Express can provide door-to-door delivery for any Laboratory. This will ensure optimal tracking of shipments as well as quicker results for your clients.

Laboratory Express is currently in over 75 markets and we are expanding our service. If you are interested in pursuing courier services in any area within the United States, including Hawaii, Laboratory Express can provide exceptional service for your logistical needs at a competitive price.
